General News.

The Tageblatt says:—"The Czar recently found on his writing table a letter announcing that the Nihilists would wait no longer to deliver the people from bondage. He thereupon summoned the members of his Council and ordered them to prepare a constitution suitable to the condition of the Empire. At the same time he informed his Ministers that he was determined to have an annual Parliament at Moscow."

Saturday the body of Emily Brown, a respectable white woman, was brought to the Maryland University for dissection purposes. It was supposed to have been a stolen body, but curious wounds excited suspicion and merely as a feeler the colored assistant janitor, Anderson Perry, was arrested. Believing the authorities had found him out, he confessed that John T. Ross and Albert Hawkins, colored, had killed the woman for $15, which he offered for the body.

J. C. Hill, of Edgewood, a suburb of Pittsburg, Pa., mistook his daughter for a burglar, and shot her through the neck, inflicting a dangerous wound.

The present session of Congress is destined to be noted for the large amount of legislative business transacted. Already in the first days of the session, a number of important bills have been passed by the House, and a spirit of business activity and fairness pervades at both ends of the Capitol. There are several thousand bills on the calander, and if the consideration of each consumes the average amount of time, it will require about ten years to dispose of them all.

Two hundred natives were killed by the British in a battle in Burmah. Tha latter's loss is not stated.

Ex-Governor Charles H. Crosswell, of Michigan, is dead.

The expenses of the Government printing office now amount to about $7,000 per day.

Dr. H. M. Shaffer, of Wooster, O., is lying dangerously ill with blood poisoning, caused in a peculiar manner. He was the attending physician of John Sorg, who died about two weeks ago. Before his death Sorg made a request of the Doctor that he should not allow his body to be buried until it was perfectly evident that death had taken place. The doctor complied with his request, and after Sorg's death opened several arteries of the arms. He carelessly pocketed the knife and being troubled with a painful corn a few days later he proceeded to pare the calloused skin with the same knite. Blood poisoning set in and the entire limb began to swell to enormous proportions. His condition at present writing is very critical.

A convention of the tobacco-growers of Kentucky have decided that the supply and demand should regulate the tobacco production and relieve the present distress in prices, and recommend that at least 50 per cent of the crop of 1886 should be withheld from the market indefinitely.

The six days' bicycle race for the championship of the United States at Omaha was won by John S. Prince, who made 767 miles and 9 laps, beating the championship record made in Minneapolis last month by twenty-seven miles, Frank Dingley, of Minneapolis, covered 765 miles; Albert Shock, of Chicago, 756 miles; Tom Hardwick, of Kansas, 746, and E. N. Ballock, of Omaha, 672.

Heaven is not a land of rest in the sense of indolence. We are not to think of the home prepared for us by Christ as a place in which there will be no activity or growth of mind and heart; for the service to which we shall there be called will be a service in which every faculty of intellect and of effection w"l have full play.—Ex.

CATARRH

THOUSANDS ARE DYING

In early life with consumption, who can look back a few years—perhaps only months—when it was catarrh. Neglected when a cure is possible, very soon it will transform the features of health and youth into the dark, pallid appearance; while the hacking cough, the excess of blood gushing from the lungs, or night-sweats, all significantly proclaim it is too late; and thus neglected Catarrh ends in the consumptive's grave.

NASAL CATARRH.

Sometimes the disease only affects the membranes lining the nasal passages, and they may be easily reached and cured by simple means. But when it is located in the "frontal sinus," or in the "posterior nares," or if it has entered the "Eustachian tubes," as all well-read physicians will readily attest, nothing can be relied on to effect a permanent cure but the inhalation of properly medicated vapor. In the same manner that we breathe a common air we can inhale and breathe a medical air; and it is perfectly simple, any one can see, thus to treat a disease of the throat, bronchial tubes and lungs. How much better this method, by which remedies are conveyed directly to the seat of the disease, than to resort to the uncertain and too frequently mischievous action of medicines taken into the stomach.

BRONCHITIS OR INFLAMMATION OF THE BRONCHIAL TUBES.

This disease is so closely connected with CATARRH that it may be truly described as a branch of that disease, only modified and changed by the nature and organization of the parts affected: CATARRH being confined to the interior of the Nose while BRONCHITIS affects the small pipes entering the lungs, known as the Bronchial Tubes. Where the disease obtains its worse character, tumors grow up like mushrooms, creating inflammatory adhesion and discharge of offensive matter from the throat extending through the Eustachian Tube to the ear, which becomes affected. The absorption of the tuberculous matter is very dangerous, and frequently results in PULMONARY CONSUMPTION and death.

THE COLD AIR INHALING BALM.

This part of my treatment I regard as very important, especially in warding off colds (which is half the battle) and in relieving the head and lungs, while under their effects. The balm is composed of several kinds of gums, balsams, firs and essential oils, which are separately used by the best physicians in treating throat, bronchial and lung diseases. These I have combined, and concentrated their virtues, which by the inhaling process, are drawn through the various passages of the head and respiratory organs, reaching and healing every irritated spot. If used when a cold first makes its appearance—which usually begins by irritation of the mucous lining of the nose, and a sneeze, which is nature's emphatic warning—it will invariably check it; and by producing a quicker circulation, and by throwing the blood to the surface, the bad effects of a cold are warded off. It is pleasant to use and almost instant in its effects.

MY EXPERIENCE.

Nineteen Years of terrible headache, disgusting nasal discharges, dryness of the throat, acute bronchitis, coughing, soreness of the lungs, raising bloody mucus, and even night-sweats, incapacitating me from my professional duties, and bringing me to the verge of the grave—all were caused by, and the result of, nasal catarrh. After spending hundreds of dollars and obtaining no relief, I compounded my catarrh Specific and Cold Air Inhaling Balm, and wrought upon myself a wonderful cure. Now I can speak for hours without difficulty, and can breathe freely in any atmosphere. At the calls of numerous friends, I have given my cure to the public, and have now thousands of patients in all parts of the country, and thousands of happy fellow-beings whose sufferings I have relieved. My cure is certain, thorough and perfect, and is indorsed by every physician who has examined it. If I can relieve my fellow-beings as I have been relieved of this loathsome disease, which makes the possessor at once disgusting to himself and others, I shall be satisfied and feel that I have done my little toward removing the ills of mankind.

THE EXPERIENCE OF OTHERS.

On account of so many patients having been swindled by unprincipled quacks and pretenders, who flood the country with their advertisements, we deem it only fair that every one that wishes should have the opportunity to ascertain whether we are able to accomplish all that we claim; and for this purpose we add a few of the many hundreds of unsolicited certificates that have been sent to us by grateful patients; almost any of whom will doubtless respond to any inquiry by letter, if accompanied by a stamp to pay postage. Having been cured themselves, they will doubtless be willing to let the afflicted know where they may find certain relief.

We have hundreds of certificates from all classes—physicians, clergymen, lawyers, judges, merchants, bankers and business men: but many dislike the notoriety of having their names in print, or dislike the task of answering letters of inquiry, have requested us not to publish their names; and this injunction is always most sacredly respected. Correspondence of all kinds is strictly confidential.

He Knows It Cures.

BOSTON, Mass., July 6, 1885.

REV. T. P. CHILDS:

Dear Sir:—It is now about five years since I put myself under your treatment.—I was then a great sufferer from Catarrh and its effects upon my system.

I had dyspepsia, a constant headache, ulcers in the posterior nasal passages, affection of the left tear duct, ringing in the ears—in fact, nasal and bronchial catarrh affecting all the passages of the head and throat. The above was accompanied with a great deal of physical disability,—sometimes unfitting me for my regular duties.

Such was my condition when I commenced your treatment. I experienced immediate relief: the terrible pressure in my head relaxed, the bronchial tubes and nasal passages were soothed by the medicines. I continued to use the remedies until the ulcers subsided and healed, the bronchial tubes recovered their wonted vigor, dyspepsia gave place to appetite, and the ringing in the ears ceased.

I could now endure fatigue and exposure better than for many years. The value of your medicines in the family, in the case of colds, etc., is incalculable.

I firmly believe that no other treatment would have been so successful, in my case; indeed, nothing I tried before did me any good. I humbly thank God that he has blessed your remedy in my case, and so restored my health.

I am yours most gratefully,
CHAS. E. BAKER,

MR. G. K. SMITH, of the H. C. Staver Implement Co., Chicago, Ill., writes:—"I heartily congratulate you on the success of your treatment. It does a sick man good to know that there is a balm in Gilead."

Mr. J. MANLY, of Adrian, Mo., writes:—"There is a vast difference in my condition today from what it was this time last year; thanks to your remedy."

MR. E. B. WALLACE, President of the Merchants' & Planters' National Bank, Union, S. C. writes under the date of June 23, 1885:—"I never knew a medicine to answer its purpose better than your Cold Air Inhaling Balm."

[NOTE.—The Cold Air Inhaling Balm is a portion of our treatment for Bronchial Catarrh, but is very useful to any one, as it will almost immediately break up a fresh cold in the head, and thus prevent seated catarrh.]

MR. P. H. STICKMAN, of Brandon, Iowa, under date of April 7, 1885, writes:—"I have recommended your treatment to quite a number, and they say they will give it a trial. You can refer any one to me, for I am satisfied with your treatment and will be glad to recommend it to any one suffering with catarrh."

MR. C. F. SOUDERS, of Mt. Carroll, Ill., writes March 14, 1885:—"Your medicines for catarrh, if used according to directions, with perseverance, are a certain cure for that disgusting disease. I can cheerfully testify to the above."

MR. O. N. YOUNG, of Chico, Cal., writes under date of June 14, 1885:—"After having received your medicines, and finding them effectual in producing a cure in my case. I recommend them, and allowed other parties to have the use of them. In one case it cured an old man, and in the other a married woman."

REV. F. B. CUNZ, of Floraville, Ill., writes:—"It seems almost marvelous how rapidly my wife has gained; no more difficulty in breathing; very little coughing; and her case was not very long standing. I shall recommend your wonderful treatment whenever I find an opportunity."
